

2025 Membership Brochure

Mission

Our mission is to enhance and secure participant outcomes through education, research and advocacy on the benefits of including alternative investments like private equity/debt, real estate, hedge funds, and infrastructure within a defined contribution framework.

Enhancing Retirement Security

The benefits to defined contribution (DC) participants are clear: the inclusion of a modest allocation of diversified, professionally managed alternative assets within a multi-asset portfolio, such as a target date suite or balanced fund, will likely enhance their retirement security. We are dedicated to finding solutions to help overcome market bias and operational impediments that may limit the use of alternative investments within DC plans.

Achieving our Mission

Through education, research, and advocacy, we work to:

- Overcome the operational, educational and regulatory impediments that have limited the uptake of alternative investments in DC plans.
- Provide balanced information to educate the DC plan community, regulators and legislators on the benefits of including alternative investments in DC plans without bias for any product or solution.
- Conduct research that measures the impact of alternative investments on long term portfolios and investment structures, and how they can best be utilized in DC plans
- Present a collective industry perspective to advocate for prudent modernization of the laws and regulations that can enhance participant outcomes through the inclusion of alternative assets in DC plans

The Industry's Collective Voice

Founded in 2015, DCALTA is a 501(c) non-profit organization composed of industry leaders from nearly all segments of the DC community, allowing us to represent the collective voice of the industry with a balanced view. Our members include a diverse range of plan sponsors, alternative investment firms, consultants, asset servicers, recordkeepers and other stakeholders in the DC community who support our mission. Our Board and President have extensive experience in retirement plan investment solutions, operational processes at the participant and trust fund levels and education on a global scale.
